公共规则

Common Rules

<https://utopian.io/rules>

贡献者的Github仓库：

Github代码仓库的链接必须正确无误，并且要包含代码。如果这个条件不能满足，提交的贡献将不会被接受。审查人员会要求更改贡献，可以通过编辑贡献更新仓库。

Check the Github Repository

The linked Github repository must be the correct one and must actually contain code on Github. If this rule is not met, the contribution won't be accepted. A moderator can request for a change. The repository can be updated by editing the contribution.

贡献所属分类：

提交的贡献必须要跟对应的分类相关，审查人员可以要求更改分类，可以通过编辑贡献来更改分类，有如下分类：
建议或者功能请求分类、代码开发分类，Bug提交分类、翻译分类、图像分类、文档分类、分析分类、推广分类。

Check the Category

The contribution must be actually related to the category where it has been submitted. A moderator can request to change the category. The category can be updated by editing the contribution. See the available categories below.

贡献必须包含描述信息：

贡献必须包含尽可能多的细节信息，最好有一些图片或者视频。贡献的描述部分要有足够的长度来描述所提交贡献的各种细节，如果这个规则不能满足，贡献将不会被提交到Utopian。被接受之前审查人员会要求更改。

Contributions MUST BE Informative and Narrative

The contribution must contain as much details as possible and have some graphical contents into it (videos, images, etc.). The length of the body of the contribution must be enough to give every possible detail about the submitted contribution. If this rule is not met, the contribution won't be submitted in Utopian. A moderator can request for changes before the contribution will be accepted.

贡献可以用任何语言：

贡献可以使用任何语言，在贡献被接受之前审查人员会翻译，以确保贡献的质量。最好使用英语。

Contributions can be in any language

Contributions can be in any language. Moderators will have to translate the contribution before accepting it into the Utopian feed in order to check the quality of the contribution. English language is always preferred.

贡献的唯一性：

贡献必须是唯一的，审查人员会检查贡献是否已经被成功提交过，如果是，再次提交将不会被接受。

Never Submitted Before

Contributions must be unique. A moderator will check if the contribution has been reported before and won't accept it in the Utopian feed again if so.

提供工作量证明：

贡献必须提供尽可能的细节证明实际的工作量。比如提交请求的链接，分枝等。如果是代码贡献，请参考相应的“代码开发分类”

Provides Proof Of Work

The contribution must provide every possible detail to verify the actual work. For example: links to pull requests, forks, branches etc. if a code contribution. Read all the rules for the specific Utopian categories below.

详细分类规则：

Category Rules

建议或者功能请求分类：

提交到这个分类是非常重要的，因此贡献者必须提供足够的细节。建议或者功能请求必须要解释清楚，必须要包含必要的图片或者视频等必要的信息。

Ideas/Feature requests Category

Contributions submitted under this category are the most important ones, therefore they must provide as much details as possible. Ideas and feature requests must be well explained and in great details. They must include images or videos and include any necessary information for the idea/feature to be created.

代码开发分类：

这个分类中的贡献必须要包含提交链接，分支以及代码位置

Code Development Category

Contributions under this category must include links to pull requests, branches, forks etc. where the code has been submitted.

Bug提交分类：

这个分类中的贡献必须要包含复现Bug所需要的全部信息，比如使用设备环境，网速，浏览器版本等等

Bug Hunting Category

Contributions under this category must include all the possible information for reproducing the bug. Devices, Internet connection speed, Browser version and similar info are necessary to reproduce the submitted bugs.

翻译分类：

翻译可以直接提交到Utopian，或者提供一个翻译文件的链接，以便于检查翻译是否完成。

Translation Category

Translations can be either submitted directly on the Utopian post or there must be a link to the translated files, in order to verify the work done.

图像分类：

图形可以直接提交到Utopian或者提供一个链接到比如：布局，logo或者其他创造，以便于检查工作是否完成。

Graphics Category

Graphics can be either submitted directly on the Utopian post or there must be a link to the layouts, logos and creativity in general, in order to verify the work done.

文档分类：

文档可以直接提交到Utopian或者提供一个最新文档的链接，
以便于检查工作是否完成。

Documentation Category

Documentation can be either submitted directly on the Utopian post or there must be a link to the newly created or updated documentation, in order to verify the work done.

分析分类：

分析现有的开源项目可以直接提交到Utopian，或者提供链接，图例等，以便于检查工作是否完成。贡献必须给予更多的解释，比如为什么分析是可信的。

Analysis Category

Analyses realised for an Open Source project have to be written directly on the Utopian post or there must be links, charts, etc. to verify what has been done. The contribution must also explain in great details why the analyses have been conducted and how.

推广分类：

这个分类服务于开源项目的推广，贡献必须包含社交网络的推广链接，广告等，附加推广的效果。

Visibility Category

These contributions serve as a way to bring more visibility to an Open Source project.

They must include links to social network posts, adv and similar, plus the results of the visibility effort.
